PROFILE

After a decade in the live music and entertainment industry, I decided I needed a change. Using data in my job inspired me to pursue data analysis as a career. I have a love of technology and a strong desire to learn and grow.

SKILLS

- Python
- SQL
- Microsoft Excel
- Power BI
- Tableau

EXPERIENCE

NASHVILLE SOFTWARE SCHOOL

JULY 7 - PRESENT

PROJECTS

- City Cemetery Project - Used Nashville City Cemetery data with Excel to create three historic tours for visitors
- Yelp Monthly Searches - Used Excel to explore Yelp data for Charlotte NC restaurants. I was able to determine the most popular types of food and eateries
- Lahman Baseball Project - Explored MLB stats using SQL. Using the data I discovered unique accomplishments of players and coaches
- Power BI Project - Created a visual dashboard to present findings on NBA stats, showing that players with the most game minutes didn't always have the most impact on the game
- Tableau Project - Created a dashboard to show trends in videogame sales from 1985 to 2019, such as games with the highest sales, company sales and critical score versus commercial success

LAU LAB, VANDERBILT UNIVERSITY

LAB ASSISTANT OCT 2020 - SEP 2021

- Assisted scientists with experiments, including tissue processing, slide embedding and DNA PCR reactions
- Data entry of all experiment results, using Excel and Google Sheets
- Inventory and supply orders

MORRIS LIGHT AND SOUND

HEAD MOVING LIGHT TECHNICIAN APR 2012 - MAR 2020

- QC and repair of all moving light fixtures, lighting gear and spotlights used in concert production
- Inventory control using Flex Rental Solutions software
- Assistant to department manager. Team lead when manager was absent
