

Ryan Maurer

DATA ANALYST | BUSINESS ANALYST | BUSINESS INTELLIGENCE ANALYST

| RMaurer23@gmail.com | <https://www.linkedin.com/in/ryan-h-maurer> | <https://github.com/Ryan-Maurer> |

I am a detail-oriented and hardworking business professional specializing in data analysis and visualization. The intersection of data analysis and visualization with the rapidly growing digital music industry drives me to utilize my skill set at a firm that is indicative of what makes Nashville the “Music City”.

SKILLS

| | |
|---|------------------|

PROFESSIONAL EXPERIENCE

Nashville Software School

Data Analytics (Scientist) Apprentice

January 2021 – Present

Intensive six month program that focuses on Nashville-based students to serve the burgeoning Nashville tech-industry. Through this program, students gain hands-on experience with real-world data analytics scenarios that incorporate in-demand skills such as Tableau ,SQL, and Python.

Projects

- [Yelp Charlotte Exploration and Analysis](#): Pulled Yelp data from an external AWS database to perform exploratory analysis, culminating with an interactive map in Power Pivot.
- [App Trader](#): Imported Google and Apple play store data for cleanup and analysis for the purpose of providing investment recommendations to a marketing firm.

Uber Technologies Inc.

Courier

January 2021 – Present

- Completed pick-ups and drop-offs with personal vehicle based on customer’s unique specifications
- Ensured timely and efficient transport of goods while taking the proper safety precautions

US Census Bureau

Census Enumerator

July 2020 – October 2020

- Conducted interviews in accordance with confidentiality policies while practicing effective communication strategies
- Maintained exceptional completion rate of surveys throughout contract
