PROFESSIONAL EXPERIENCE

Business Intelligence Specialist
2019 - Present

State of Tennessee · Finance & Administration · Nashville TN

- Created/designed BI dashboard (Tableau) for the Government Office of Diversity Business Enterprise (GoDBE); enabling the General Services office to track their entire portfolio of business certifications and expenditures
- Created/designed Edison Mileage Reimbursement Dashboard for General Government to identify high mileage drivers eligible for a leased vehicle, avoiding unnecessary and costly annual mileage reimbursements to State employees

Strategy Analyst
2014 - 2019

State of Tennessee · General Services · STREAM · Nashville TN

Business Intelligence

- Created/designed interactive Tableau dashboard visualizing STREAM's portfolio from 2007-Present. Plotted all locations allowing user analysis by selected time, agency, region, county, and individual building in STREAM's 9M sq. ft. portfolio
- Developed county demographic visualization utilizing US Census data to evaluate location presence vs. service need for all DHS office locations

Data Analysis

- Assisted in the development of long term strategic real estate plans for 24 executive branch agencies by providing agency cost, building and data visualization analysis (Tableau)

Data Warehousing

- Identified and consolidated all portfolio data into centralized database enabling department to scale up data reporting and business operations

SharePoint Site Developer/Admin

- Designed, developed, and maintained customized SharePoint platform to track progress for all work of Leasing and Workplace Strategy Groups

Operational Services Associate
2006 - 2013

Vanguard · Charlotte NC

- Internally managed financial accounts according to quality/productivity standards
- Assisted high net worth clientele ($250K+) with investment consultation

---

EDUCATION

Data Analytics Bootcamp – Apprenticeship
2021 - Present

Nashville Software School · Nashville TN

- Six-month intensive review of data analytics and business intelligence processes and tools, with emphasis on analytical reasoning through hands-on training on every stage of the analytics workflow
- Expanded expertise in **Python**, **SQL**, **Tableau**, **PowerBI** and Agile processes
